

**REMARKS**

The Notice to File Missing Parts of Nonprovisional Application mailed on 06/03/2004 contained a note that Fig. 3B appears to have been omitted. Applicants note that no drawing figures were omitted from the application as filed. Rather, the Brief Description of the  
5 Drawings contained an incorrect reference to Figs. 3-A-B, rather than Fig. 3 (paragraph [0009], page 2, line 23). Paragraph [0009] of the specification was amended to refer to Fig. 3, which is correctly shown in the drawings as filed.

Two other minor errors were corrected in paragraphs [0026] and [0027] and in Figs. 4-A-B.  
10 In paragraph [0026], the reference numeral 40 was replaced with the correct reference numeral 50. In paragraph [0027] and Figs. 4-A-B, the reference numeral 90 (also used in Fig. 1-B to denote a beam crosspoint) was replaced with the reference numeral 89.

Applicants respectfully submit that the above changes do not constitute new matter.

15 Respectfully submitted,

Date: 8/16/2004
